

Eclipse Servo Motor Brake/Adaptor

Nexen is pleased to announce the Eclipse Servo Motor Brake/Adaptor. It adapts your servo motor to industry standard NEMA outputs, such as gearboxes. Now you can use standard NEMA gearboxes with your servos.

Input Same as Nexen Product Number	Max Pilot (mm)	Min BC (mm)	Shaft (mm)	Torque (Nm)	Torque (in-lb)	Output Flange	Use Nexen Product #
964704	80	90	12.7	8	70	NEMA 34	964704
964700	80	90	16	8	70	NEMA 56C	964707
964701, 964703	80	90	14	8	70	NEMA 56C	964705
964800, 964801, 964804	110	125.72	19	22	200	NEMA 56C	964809
964800, 964801, 964804	110	125.72	19	22	200	NEMA 143/145TC	964811
964900	131	150	24	22	200	NEMA 143/145TC	964810
964900	131	150	24	45	400	NEMA 56C	964902
964900	131	150	24	45	400	NEMA 143/145TC	964903

To find the brake adaptor for your needs, refer to the Eclipse Servo Brake Application Guide(#21009) to find the brake that fits your motor. Then, refer to the above table for the appropriate brake/adaptor. We are adding to our list of motors daily, so if you do not see your brake listed above, contact us for the latest information.
